Skills

Languages: JavaScript, Python, Java, Typescript
Technologies & Tools: AWS, S3, EC2, Docker, Kafka, ReactJS, Next.js, Nodejs, Express.js, MongoDB, PostgreSQL, Nginx, Tailwind CSS, Git, GitHub

Experience

Accura Tequipment, Bengaluru   **Jun 2024 – Dec 2024**
Full Stack Development Intern
- Developed a Learning Management System (LMS) with advanced features to boost user engagement and meet organizational objectives.
- Streamlined the uploading and storage of images, videos, and files by incorporating AWS S3, ensuring robust, scalable, and secure media handling across various platform sections.
- Transitioned the backend system from a monolithic structure to a microservices-based architecture, enabling multi-tenancy, better scalability, and easier maintenance for diverse client needs.
- **Technologies:** Next.js, Node.js, Express.js, MongoDB, AWS S3, Microservices Architecture, RESTful APIs.

Projects

Prompt Sharing Hub   *Live link* 🔗
- Developed a Next.js full-stack app for sharing, discovering, and searching AI prompts.
- Integrated Google and GitHub login with NextAuth for seamless authentication.
- Added hashtag-based categorization for easy prompt creation and discovery.
- Enabled direct prompt usage with ChatGPT and Claude.ai.
- Delivered a responsive, user-friendly interface for enhanced engagement

Movie Finder   **Live link** 🔗
- Built a React.js application to search and display movies seamlessly.
- Integrated API to fetch movie details, including title, genre, and ratings.
- Designed a clean, intuitive UI for an engaging user experience.
- Implemented efficient state management for smooth search functionality.

Education

Presidency University Bengaluru   **Aug 2022 – Jun 2026**
B.tech Computer Science and Engineering (Currently achieving a 6.28 CGPA)

AL Sharay Indp PU College, Gulbarga   **Aug 2021 - Apr 2022**
Pre-University (80.6%)

D D U Convent School, Shahapur   **Jun 2019 – Apr 2020**
Tenth Standard (71.2%)
